Whitepaper: Inpinity
Version 2.0 – February 2026

---

1. Introduction
Inpinity is more than just another cryptocurrency token. We are a decentralized ecosystem bridging the gap between **blockchain technology, gaming, and digital advertising**. After a necessary migration away from a compromised launch partner (ToshiMart), we have re-established Inpinity on a foundation of complete transparency and community trust. Our goal is to create a sustainable and interactive platform where users can not only play but also earn rewards and actively participate in the project's governance.

Founded by the **"Xpective"** team, Inpinity combines innovation with a community-first approach. The token **$INPI** (new contract) is the core of this universe.

---

2. Project Overview
Project Name	Inpinity
Token Ticker	$INPI
Blockchain	Base (Ethereum L2)
Contract Address (NEW)	`0x232FB12582ac10d5fAd97e9ECa22670e8Ba67d0D`
Old Contract (Deprecated)	`0x15ac8e2c38f0c644123e61011e7113de56038453` (do not use)
Official Website	https://inpinity.online
Community	Twitter: [@unxpective](https://twitter.com/unxpective) Discord: https://discord.gg/95yj6Eg6 Telegram: https://t.me/+1hl5Ou-pGChhYmUy
Development	GitHub: [Xpective](https://github.com/Xpective)

---

3. Tokenomics
The economic model of Inpinity is designed for long-term growth and stability. The total supply is fixed at **1,000,000,000 (1 billion) $INPI**.

3.1 Supply Distribution
Category	Percentage	Amount ($INPI)	Description
Liquidity	20%	200,000,000	Locked until **23 October 3033** in a time-lock contract.
Team & Advisors	10%	100,000,000	Vesting: 1-year cliff, then linear over 3 years.
Staking Rewards	15%	150,000,000	Reserved for staking incentives.
Events & Airdrops	5%	50,000,000	For community growth, marketing, and giveaways.
Reserve & Ecosystem	50%	500,000,000	Held by the team for future development, partnerships, and strategic initiatives. (150M of this will be sold in the presale – see section 4.)

3.2 Locks and Transparency
- **Liquidity (20%)**: The LP tokens from the initial Uniswap V4 pool will be locked in a dedicated smart contract until **23 October 3033**, guaranteeing that no one can remove the liquidity before that date.
- **Team Tokens (10%)**: Subject to a vesting schedule with a 1-year cliff and 3-year linear release. This ensures alignment with long-term project success.
- **Staking Rewards**: The 150M tokens allocated for staking are held in the staking contract and will be distributed over time according to the reward rate.
- **Reserve**: The remaining 50% is under multisig control and will be used transparently for the growth of the ecosystem (e.g., additional liquidity, exchange listings, grants).

---

4. Presale & Migration
Due to the security breach at our former partner ToshiMart, we have migrated to a new token contract. A presale of **150,000,000 $INPI** (from the reserve) is being conducted from **26 February 2026, 20:20 UTC** to **5 March 2026, 20:20 UTC**. The rate is **10 INPI per 1 ETH**, with a minimum contribution of 0.01 ETH and a maximum of 2 ETH per wallet. After the presale ends, participants can claim their tokens, and the liquidity pool will be created on Uniswap V4 and locked until 3033.

Presale contract (verified):
`0xBdca2af387F13E3d371c1786c333c28E6a3b32e3`

5. Roadmap
Quarter	Milestone
Q1 2026	**Genesis**: Token launch (new contract), presale, community building, smart contract audit (in progress).
Q2 2026	**Staking Launch**: Users can stake $INPI to earn passive rewards. First exchange listings, introduction of governance.
Q3 2026	**Website Upgrade & Partnerships**: Enhanced dashboard, strategic alliances in gaming.
Q4 2026	**Gamification**: First mini-game release, "Inpinity Genesis" NFT collection.
Q1 2027	**Marketplace**: Decentralized NFT marketplace, on-chain governance.
Q2 2027	**$ADVERT Sub-Token**: Earnable by holding $INPI, used for advertising in the ecosystem.
Q3 2027	**NFT In-Game Utility**: NFTs gain full functionality in the main game (playable characters, skins, etc.).
Q4 2027	**Community-Driven**: Open for proposals and further development.

---

6. Utilities: The Power of $INPI
1. **Staking**: Lock your tokens and earn a share of the 150M reward pool.
2. **Governance**: Vote on proposals that shape the future of the platform.
3. **Rewards**: Active community members receive $INPI for contributions.
4. **Exclusive Access**: Holders get access to private channels, beta tests, and exclusive NFTs.
5. **In-Game Currency**: Use $INPI to buy items, enter tournaments, and earn rewards.
6. **Transaction Medium**: Primary currency on the upcoming NFT marketplace.
7. **Economic Driver**: Holding $INPI generates the $ADVERT sub-token, used for advertising within the ecosystem.

---

7. Ecosystem Partners
- **Base**: Scalable, secure L2 blockchain where Inpinity operates.
- **Uniswap**: Decentralized exchange providing liquidity and trading.

We have **terminated** all relations with ToshiMart due to phishing concerns. Our new contracts are independent and fully controlled by the Inpinity team.

---

8. Team
Xpective – A dedicated team of developers, blockchain enthusiasts, and visionaries who believe that the future of gaming must be decentralized and community-driven. The team places the highest value on transparency and long-term value creation.

---

9. Security and Legal
- **Audit**: The new token and associated contracts have been or will be audited by a reputable third party (in progress).
- **Legal**: This whitepaper is for informational purposes only and does not constitute financial advice. Potential investors should conduct their own research and understand the risks associated with cryptocurrency investments.
